

SODEL IS PROUD TO SUPPORT NOCEDAL SCHOOL (SANTIAGO, CHILE)

Mr. Jean-Luc St-Pierre, President of Sodel has made several visits to the Necedal school in order to meet with the students and their teacher's. The school of El Castillo, in La Pintana, can be seen as a gem in it's community. This school of 800 students from grade one to twelve is changing the lives of hundreds of children and their community. Throughout these visits we have been touched by the stories of several children, coming from areas characterized by poverty and limited expectations but we can still see the light in their eyes and their desire to accomplish somehow, in spite of what might seem to some people as impossible. The smile we can see on their faces is reinforced by their teacher's and the people in Necedal that believe in these children and believe that the future of their country depends on the success of every child. A lot has been done but there is always more we can do to change things. That is why Sodel is proud to get involved in the Necedal Project to help keep the torch high for this school and the children of Chile.
